

## HSK5232 Series Mil-spec DC-DC converter

### 1.1 Absolute maximum rated of Mil-spec DC-DC converter

Pulse input voltage  $V_{INP}$

(Positive pulse width 100ms, positive duty cycle 1%) ... -20V~+60V;

Input voltage  $V_{IN}$  ..... 26V;

Output current limit ..... 3.0A;

Storage temperature  $T_{stg}$  ..... -65°C~150°C;

Lead welding temperature (10s)  $T_h$  ..... 300°C;

Junction temperature  $T_j$  ..... 175°C;

Thermal resistance  $R_{(th)J-C}$  ..... 6.5°C/W;

Power consumption  $P_D$  (Without heat sink) ..... 500mW.

### 11.2 Recommended operating conditions of Mil-spec DC-DC converter

Input voltage  $V_{IN}$  ..... ( $V_{OUT}+1$ )V;

Operating temperature  $T_C$  ..... -55°C~125°C。

## 1.8 Application Notes of Mil-spec DC-DC converter

- ☆ The electronic inspection point should be kept as close as possible at the root of the pin;
- ☆ It is strictly forbidden to bend the pins;
- ☆ To prevent the application of two or more absolute maximum ratings on the device at the same time;
- ☆ To prevent the device from falling off;
- ☆ To prevent the output and ground short circuit;
- ☆ To prevent the device from being reversed or dislocated;
- ☆ During assembly, the bottom of the product should be attached as close as possible to the circuit board to avoid damage to the pin, take shockproof measures for necessary ;
- ☆ Focus on device power consumption, the power consumption  $P_D = I_O(V_{IN} - V_{OUT})$ , When the input/output voltage difference ( $V_{IN}-V_{OUT}$ ) is large, output current  $I_O$  should be smaller; When the input/output voltage difference ( $V_{IN}-V_{OUT}$ ) is small , output current  $I_O$  should be larger; When the device power consumption is large, be sure to configure the appropriate heat sink to prevent the device damaged due to overheating or into the overheating protection status;
- ☆ Both positive and negative terminals of power supply shall be correctly connected when power is applied so as to avoid permanent damage to the device.;
- ☆ Anti-static measures should be taken during storage and transportation.
